Common household hazardous wastes

Most contractors will accept, for transportation and disposal, the majority of hazardous waste typically produced by households. *It is stressed for the safety of everyone involved that all materials are known and properly labeled.* Wastes in their original containers may be accepted. Wastes that **are not** in their original containers may be accepted as "known" wastes provided they are labeled. Unknown wastes, if acceptable, will be field tested and packaged for incineration. Below is a list of typical household hazardous wastes accepted for collection, but vendors may accept additional wastes not listed below:

Ammonia	Metal polish
Antifreeze	Moth balls
Arts and crafts supplies	Muriatic acid
Bleaches	Oil based paint
Brake fluid	Old Chemistry sets
Cesspool cleaners	Oven cleaners
Compact fluorescent lamps	Paint thinner
Creosote	Pesticides
Drain cleaners	Photo chemicals
Dry cleaning fluids	Pool chemicals
Engine and radiator flushes	Radiator cleaners
Floor cleaners Fluorescent	Rodent killers
tubes Herbicides	Rust preventatives
Household batteries Insect	Sealants
sprays	Solvents
Jars of liquid Mercury	Transmission fluid
Mercury thermometers	Wood preservatives
Mercury thermostats	Wood strippers

****WE WILL NOT BE COLLECTING E-SCRAP AT THIS EVENT.
STAY TUNED FOR A SEPARATE EVENT DATE AND TIME.****

The collection and management of E-scrap may include computers, monitors, TVs, keyboards, cables, connectors, printers, fax machines, stereos, electronic games and cell phones.

Many contractors will reserve the right to refuse any waste deemed unsafe to handle or unsuitable for the collection. Such wastes typically include:

Large quantities of unknown materials
Radioactive waste, including smoke detectors
Explosives, gun powder, flares, ammunition
Unstable wastes
Pressurized fire extinguishers
Unknown gas cylinders
Substances regulated by the Drug Enforcement Agency

Be sure your contractor gives you a list of what they will
and will not accept and the cost estimates for each product.
